DEPARTMENT OF HEALTH AND HUMAN SERVICES

Vision for Sharing EMERGENCY Public Health Practice Information

Donna M. Garland

Associate Director

Office of Scientific and Public Health Practice Resources
Public Health Practice Program Office, CDC

SAFER • HEALTHIER • PEOPLE™

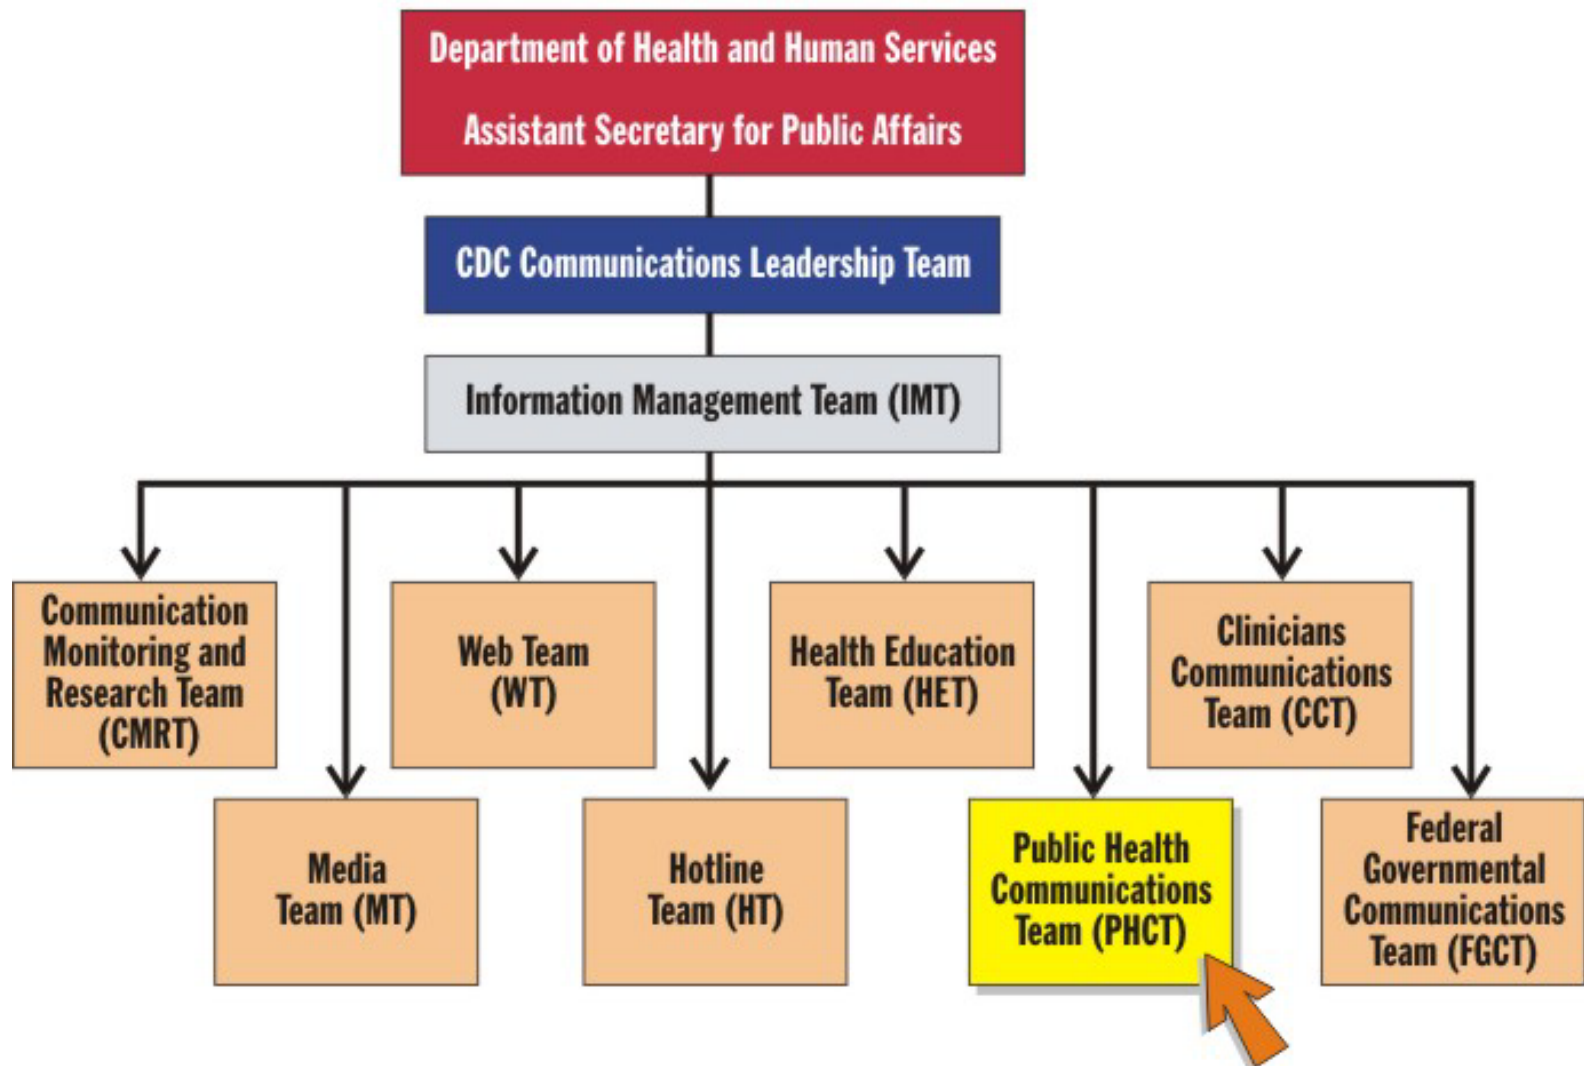

Communication Principles

- Rapid, effective and consistent communications
- Emphasize coordination - internal & external
- Agency speaks and responds in one voice

SAFER • HEALTHIER • PEOPLE™

Emergency Communication System

Public Health Workforce Team

- Identify critical groups and channels to reach them
- Work with HAN and EPI-X on message disseminations
- Arrange regular briefings and updates
- Respond to inquiries
- Coordinate information dissemination efforts with EOC and other ECS teams
- Gather feedback

SAFER • HEALTHIER • PEOPLE™

Post and Push Communications

Post –

- Audience-specific teleconferences
- Web pages
- EPI-X postings
- Archived broadcasts

Push –

- EPI-X & HAN with pro-active alerting
- HAN
- Satellite broadcasts
- Clinician E-mail list-serv

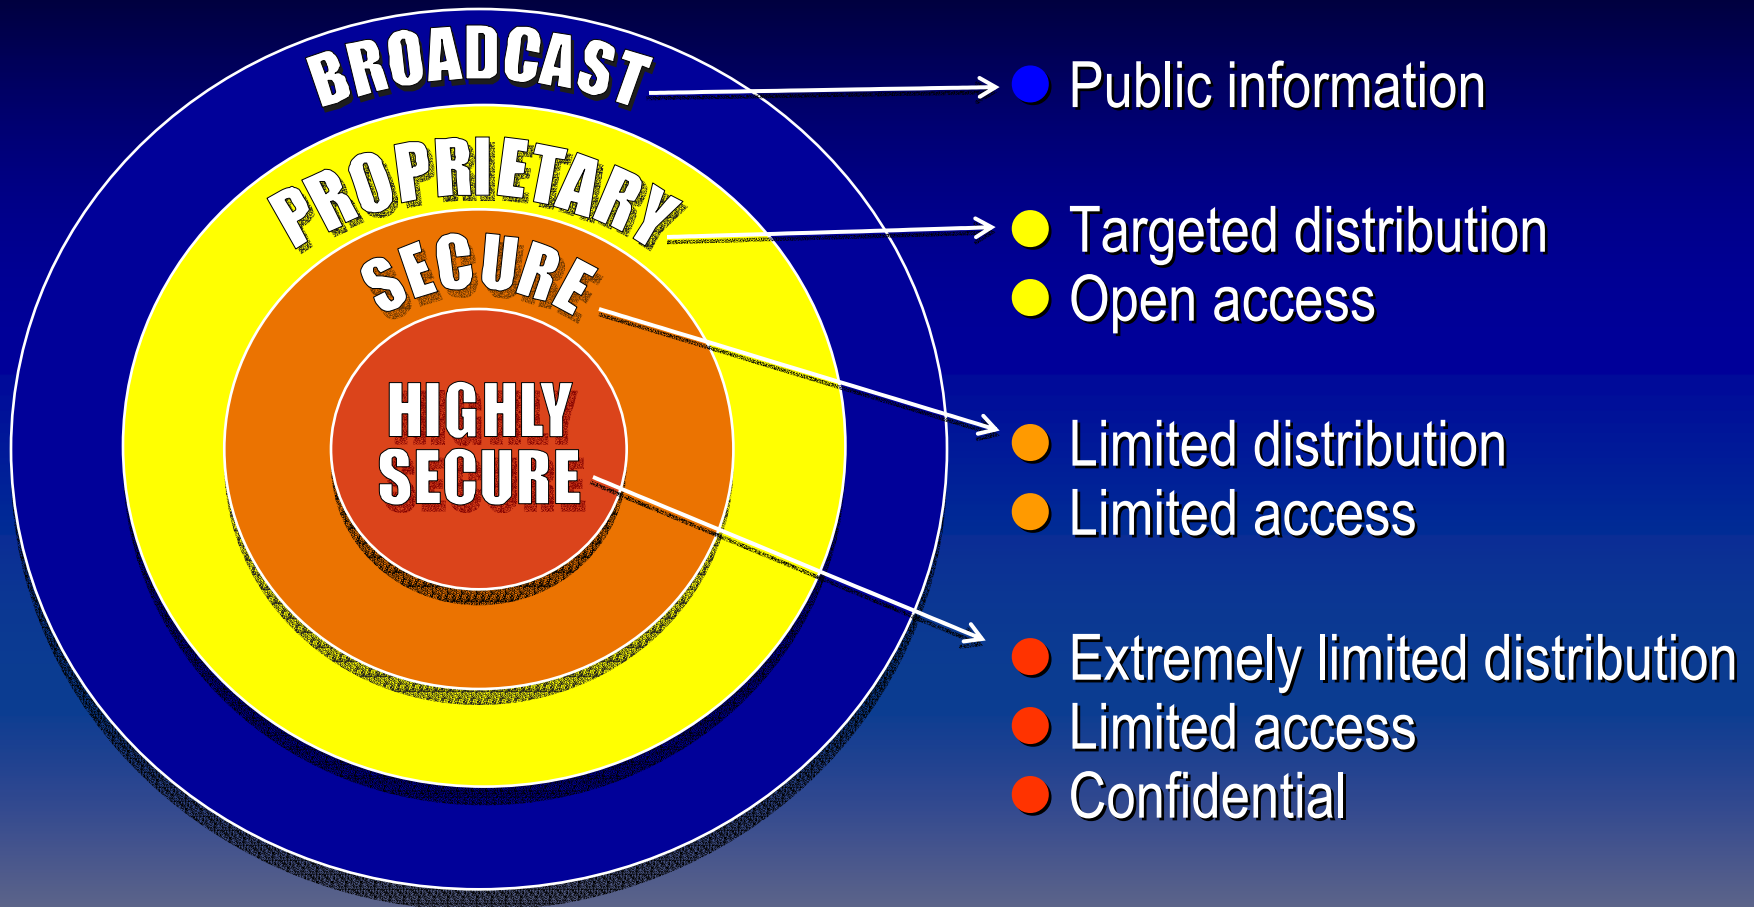

Push with Purpose

- Messaging based on need for security
 - Limited distribution
 - Protected “reading rooms”
- Messaging based on end use
 - Immediate practice implications
 - Reference/resource material
 - General information for many

SAFER • HEALTHIER • PEOPLE™

Targeting Communication

Challenges...

- Post the right information
- Push information
 - Appropriate urgency
 - Appropriate target(s)
 - Appropriate mechanism(s)
- **Complete the feedback loop**
